The ORDER #16/July-October '96

The Official Magazine of the National-Socialist Alliance

EDITORIAL by *Andy Saxon*

Welcome to issue 16 of The Order Magazine, which is now to be the official Magazine of the NSA. I hope you find this issue greatly improved from the previous issue, which was my first as head editor in chief. In the months since that issue i have begged, bribed & headhunted a number of writers from the Movement to join our staff, and i now feel we have the winning team, on the winning side. To the right is a list of the different NSA units in Britain, as most of these produce their own regional bulletins on events & happenings in the scene, so i decided that this magazine would be better employed concentrating on features, as opposed to topical news items, which most of the regional bulletins have already covered. Among our new staff, is the infamous Dr Albion Wolf, the former editor of PUTSCH. Dr Wolf is renowned for his scathing sarcasm, and duely leaves me to state that. **DISCLAIMER- NOT ALL THE VIEWS EXPRESSED IN THIS MAGAZINE ARE NECESSARILY ENDORSED BY THE EDITOR.**

The Movement in Britain has had its problems in the past year with disruptive elements connected to the music scene. These parasites are few in numbers and insignificant. They are parasites, not political, between the bunch of them i bet their activity hasn't even extended to putting a sticker up !. Music is a valued part of the Movement, but no matter how many C.D.s you play, or how many mags you read for that matter, the racial dilemma does not alter. Unless you are prepared to show the courage of your convictions & act !.

Our cover page shows intrepid News of The World reporter Patrick O'Mahoney, AKA Gary Jones, the man behind the recent so called expose of the alleged members of The British Ku Klux Klan in Birmingham. This red hack took gutter journalism to new depths with his two page spread on the BKKK. We at The Order hope that he understands that we do not take kindly to our own kith & kin being subjected to such vile smear stories !!!!!!!!!!!!!!!!!!!!!!!.

Since the last issue a massive police operation took place around Britain against the NSA/C18, dozens of people were raided and arrested, but we continue to grow, undetered by ZOGs oppression. In early July two of our better known people, Comrades Sargent & Browning had their Court case further adjourned at Londons notorious Old Bailey Court House. Along with Charlie & Will, Razorsedge's guitarist Martin Cross has also now been charged. The 3 are due to re-appear on December 9th, each being charged with 12 offence's of "incitement to racial hatred". The trial is booked for 2 weeks, which means should they get a guilty verdict against them, they will be sentenced on Christmas Eve !, a touching gesture by ZOG.

In June of this year a fake group appeared, called The B.N.S.P. they conducted a mass mail out of their tacky absurd literature, using what is now clear, the stolen BNP mailing list for addresses. This group is either a Communist or State set up, so should you come across it, ignore it !. Sadly Comrade John Tyndall of the BNP issued a statement stating that C18 were behind this group, perhaps Mr Tyndall could refrain from further Cavalier attacks in the future, and obtain facts not ridiculous assumptions before inking his pen.

A new development with the cause which is warmly welcomed is the formation of a British based Irish racist group, The Shamrock Legion. Full details of this group will appear in issue 17. With more Irish living in mainland Britain then actually in Ireland, the potential for this group is huge, we at The Order will be doing everything we can to help our Irish brothers start up.

With the European Soccer Championships now finished, the Nationalistic feelings that swept Englands people have now returned into the sub-conscious, and the George Cross flags folded and put back into the cupboards !. But for one section of Britains multi-racial society, the feeling of National pride never arose. The negro newspaper The Voice carried an opinion poll of its readers which revealed that over half of Britains negro's were cheering the opposing teams that played England. The main reason being "we felt repugnance at the torrent of Nationalism, people wrapped in St George flags is a vision of England that blacks can never be part of".

LEADERLESS RESISTANCE-A Pan Aryan Compilation.

MSR PRODUCTIONS. PO BOX 1291 WHEAT RIDGE. CO. 80034-1291 U.S.A.

If you are looking for value for money, this C.D. has a massive 28 tracks on it from across America & Europe. Sometimes non-English speaking bands just do not appeal to me, but this C.D. has a good mixture by putting the few "non speaky the English" tracks among the "do speaky the English" one's, so you only feel like flicking the needle forward once on this C.D., when the abysmal French band Viking come on, and send you running for the ear plugs. One bad song out of 28 is quiet a feat, but this C.D. is worth getting for the 5 new songs on it by Vaginal Jesus & Day of The Sword alone. Clarence gives this a big thumbs up, BUY IT !.

BARBACUE IN ROSTOCK by NO REMORSE

PO BOX 35 CAERPHILLY. MID GLAMORGAN. WALES. CF83 1YF.

I think its fair to say that this C.D. has the most militant/racist lyrics i have ever heard. Jacko's powerful, yet always crystal clear lyrics really set the raw racial anthems off on this disc. If you want to hear Cello's & violins, look elsewhere, but if like me you want to be ripped into a frenzy of hatred by pulsating "ultra violence" music, the Eagle has truely landed with this offering. 88 out of 10.

ROCK AGAINST COMMUNISM 20/4/96 NORTH LONDON

NS88 POSTE RESTANTE 3400 HILLEROD DENMARK

The Führer's birthday was marked in style in darkest North London, with everything caught on video by the ever impressive team from NS88. First on were Reichsforce, a drum core from London who get the crowd warmed up with haunting drumming sessions. These were followed by East Londons Chingford attack, Razorsedge, Warlord, No Remorse, and the highly impressive Italian outfit Peggior Amico. This video has 3 hours of White Power rock'n'roll at its finest, and definitely one for your collection.

THE WARRIOR.

PO BOX 3. COUNTY ANTRIM. NORTHERN IRELAND. BT53 6RU.

This Loyalist magazine has broken new ground by running an article in its issue 4, which thanks C18 and British racials for the continued support they have given to the Loyalists of Ulster. Of course a number of Loyalists do not share our racial beliefs, but one thing we are united on is our mutual hatred of the marxist IRA filth...This mag has some great articles on the Ulster situation, and to me it certainly stands out among the many other Loyalist publications. Anyone wishing to contribute to the Ulster cause, can do so at the above address, a sample copy of THE WARRIOR is available for £1.25 or a £1.00 & a S.A.E. Subscription is £8 for 6 issues.

A DOGS TALE & A C18 GUIDE TO ZOG OPPRESSION.

PO Box 6595, Fresno CA, 93703, USA.

Two fantastic zines here. A Dogs Tale is based on George Orwells classic Animal Farm book, but this time the story & animals go along racial lines. The hero of the story is a Bull Terrier & member of Canine 18, this story is written in a brilliant humourous fashion, but never strays from the important underlining message. This read will appeal to everyone, make sure you get a copy.

The second zine A C18 guide to ZOG oppression, is another one that you just cannot put down. It is a mine of information ranging from how the police get fingerprints, to tips on how to spot a plain clothes cop, and generally crammed with tips & hints of how to avoid the long tentacle of the ZOG. Both of these publications are available for £2.00 in stamps or 5 x I.R.C.s from the above address.

RAMPAGE

Although this rubbish isn't political, its "oi oi lets have a laugh" type of thing, its worthy of a mention for one of the articles that Steve Jones the editor put in asking "is it really a crime to listen to The Oppressed" ?, which i will answer for him.

"People's musical tastes often vary, incorporating a very wide range of style's, type's and actual bands, nobody can disagree with that.

Personally i do think it's a crime to listen to The Oppressed, but if people wish to listen to these moronic reds, that is their own choice.

What is a downright crime of no doubt however, is to give a band such as these a "dedication". One has only to look in the dictionary to define the word "dedicate", which is "TO SET APART AND CONSECRATE TO SOME SACRED PURPOSE".

This is quiet a statement, which gives those "dedicated" a holy status in recognition of themselves and their music. Jones remarks that he is not ashamed to tell people that he has Oppressed records in his collection, and says "i can relate to a lot of the lyrics in their songs". (I am sure he can). The Oppressed's "fuck fascism" E.P. is currently being sold by anti-fascist action, all the proceeds from this record go to the anti-fascist cause, Roddy the vocalist started the S.H.A.R.P. off in Britain and laughs about the deaths of the band Violent Storm in anti-facist mag "Fighting talk". Is this a band that you would regard as "sacred" ?, would you put this band down in the dedication list on your C.D. sleeve, alongside a truely "sacred" band such as Skrewdriver ?.

When you consider the fact that The Oppressed donate all the profits from their record sales to the anti-fascist cause, and Steve Jones split from Blood & Honour because he didn't want to put any money into our cause, you can at least respect The oppressed for at least supporting the ideals they believe in, regardless of how repulsive their beliefs are to us, but what respect is there for Jones giving this filth a dedication in his pen pal club zine ?; Jones says that "we have to rid the movement of the political leeches", we have i think by getting rid of you Jonesy !.

AMERICAN BLOOD & HONOR MAGAZINE ISSUE 16.

PO BOX 7419 MINNEAPOLIS, MN, 55407, U.S.A. U.S. \$4.50 U.K. £3.00 EUR \$5.

This issue is vastly improved then previous American B & H issue's, which i always found lacking in content. Following the lead of Britain, this issue also sports a full colour, or color as the yanks say cover, has a blinding interview with DAY OF THE SWORD, as well as East Londons CHINGFORD ATTACK. This issue contains a huge merchandise list of just about everything you could think of connected to the Movement, and all in all a good read from cover to cover.

THE ORDER MAGAZINE PROUDLY WELCOMES TO ITS RANKS THE MOST NOTORIOUS WRITER IN BRITAIN, THE LEGENDARY DR ALBION WOLF AND HIS NO HOLDS BAR PEN OF TRUTH (AND HIS LINCANNY ABILITY TO UPSET PEOPLE):

***Albion kicks off his return with an indepth interview
with a Black Separatist, American Soldier, AGO AGIBOOGIE...***

Albion: What you looking at boy ?

Ago: Say what, what is this shit man, why you trying to eyeball me out man, shhhiitttt.

Albion: You say you are in the army, so tell our readers what its like to dig latrine pits ?

Ago: I don't have to put up with this shit man, you'll show me some respect right now or i is leaving.

Albion: Fuck off then, i don't give a toss what you've got to say really, being separate means being apart, so piss off.

***Interview concluded. Albion now quizzes a leading Death Metal band,
BLACK SNOT's vocalist, Warlock Smith...***

Albion: Can you tell us your sex, you look like a tart but have a bit of stubble on your chin, and i am not too sure ?

Warlock: Fuck you, i am off to burn down a church.

Albion now examines un-National Socialist behaviour around Europe:

Being a National Socialist means that you must always remain in control of your emotions and actions at all times. You must in other words behave Aryan. Currently in Britain there seems to be a lot of precedence on the so called "road rage" syndrome which seems to be one of the main attributes for people losing their self control. For those of you unaware, "road rage" takes its name from the reaction of car drivers to fellow motorists who shouldn't be on the bloody road. Sometimes when you are driving you get annoyed or you get bloody furious when some totally imbecilic incompetant dirty little Trotskyite in his Citroen cuts you up on the motorway. The irratic way this scumbag drives could well put your cackles up and make you feel like dragging the piece of excrement out of his car through the windscreen and kicking his teeth down his throat until they come out of his toes. But this is not the National Socialist way, we must at all times keep ourselves under strict discipline and control and act in an Aryan fashion.

Of course Britains "road rage" syndrome is echoed in every European Country in their own respective way, none more so then in Greece where the dreaded "Boat rage" is commonplace among the Greeks.

You could be out on your boat on a lovely summers day enjoying a bit of the old "yo ho ho", when all of a sudden Spiros speeds by in his tatty old fishing boat giving you the "big splash" as he cuts the waves as he passes. You may well feel like smashing the plate & ripping the hairs out of his back until he bleeds, but you must use your self control at all times and refrain from loosing your temper and act as a National Socialist.

One further example is Germany where the infamous "froth rage" is often a major source of violence. You could go walking into a bar and order a nice cool beer only to have some Turk barman serve you up with a glass of stale froth! The rage you would feel would be huge you would want to box Johnny Turks ears all the way back to Istanbul, but you must show our racial enemies that we are above them, and always show dignity when faced with such provocation. In other words, if you loose you head, try to be a bit careful and don't get arrested.

Spinning in his freezer

Most of us as kids grew up watching Walt Disney movies. Disney was without doubt a genius of his time, and for those of you unaware, he was also a believer in Cryogenics, which means that he was frozen when he died, with the belief that one day medical science could thaw him out and bring him back to life. (this theory was successfully carried out on a rat, but that's enough of the Searchlight editor). Walt was very well known for his anti-communist beliefs, and also for his anti-semitism. This is evident by his classic movie Pinnochio, where everytime Pinnochio tells a lie his nose grows! There was Dumbo, again a creature with a big nose, and also big ears who the other animals didn't want in the circus with them, and of course 101 Dalmations, which was a cryptic insight into the coming explosion of hordes of black & white mixed children, or as in this film Dalmation puppies. When one thinks of it and puts Walt's films into context, all carry racial overtones.

Since Walt took residence alongside the frozen pea's, the Disney company has continued to slide down the hill faster than a tobogan made from banana skins. The president of Disney, Michael Eisner, a man not unknown to bob his head around at a wall and never dine on pork, proudly told how of Disneys 63,000 employees, over 40% are homosexuals! Disney is even now helping the faggots promote a "gay day" by portraying Mickey Mouse & Donald Duck as homo lovers, and there was Mickey thinking the only Ducks arse he was ever going to have was when he was a Teddy boy !

The way the Disney company is being run Sleeping Beauty would be throwing the Zzzz out forever, waiting to get a kiss from a Prince, all she would get these days is a prize dyke. Cinderella just wouldn't be the same if it was a fat lesbo who returned a purple Dr Marten boot to her, and i won't dare think of what the seven dwarves would be getting up to !

The Cult of Woden

Part Two - Odinism as a Living Religion

Odinism has tended to get stuck in the Viking Era, wholly based on the Icelandic Sagas & Myths. Whereas the Sagas and Myths of an age gone by contain Eternal Truths they are not static and are to be seen as being continuous. I am now going to show you how the Myths contain Eternal Truth and are relevant to this day. This is to show the mockers of myth that they are NOT mere tales passed down to children.

In one myth Loki cuts off the Golden Hair of Sif, which he then gets replaced. Sounds silly, until we realise that Sif is not a mere name, but the Corn Goddess. It is a fact that out corn has been grown artificially, just as Sif's Golden Hair - The Corn - is replaced artificially by gold. Indeed, the "Green for Gold", I see as the reason we grow such artificial corn. Corn found in a burial urn from some 2000 years ago is of far better quality to the mass-produced crops of this age. This myth expresses to the wise the destruction of the Golden Corn of the Northlands!

MYTHS ARE ETERNAL TRUTHS ! But we cannot stay in the Viking Era, nor can the English Folk rely upon Viking Mythology, for in the religion dedicated to Woden and the Aesir Gods, but one suited to the land in which we settled - England. Odinism has failed as a movement to recognise this - the Cult of Woden has done much to alter this, giving the English their own Faith.

In Iceland, there are no trees, woods and forests, but England had vast areas of forests. Forests and woods have always been seen as harbouring the Ancestral Spirits and have brought forth the form of Germanic Folk-Hero we know as Robin Hood - The Hooded Man. I must point out that Hereward the Wake and Eadric the Wild are too associated with the forests of England. The Saxon hero Wido Kind has a name that means "Wood-Kind". The Woodland Spirit is WODEN, who is called Heme the Hunter; his "son" is Robin Hood, a form of the Hooded Man who is the English Folk-Hero and deliverer from oppression.

An English Faith must recognize this as being part of our new Faith - The Hooded Man Prophecy being vital to the English form of revolt against oppression. That Woden - who is also known as Ing, the God of Ing-Land - send his son, The Hooded Man, may be seen as the signal for the English Revolution. The Symbol we see as the rallying point for this English Revolt is the "White Dragon of England".

Now you see how the Cult of Woden has revived the ancient past, in order that the present be fired with the Spirit of Revolt as the Folk-Spirit of the Hooded Man arises again. Odinism has now been brought into the present era and for English Folk here to be fired with the Spirit of Revolt. England has a New Faith.

Cult of Woden-Militant Folkish Wodenism

A helping hand to the Promised Land?

At the end of WW2, I was a young lad aged 15 and employed as a Merchant Seaman for Peninsula & Oriental Steam Navigational Company. At this particular time the boat I was assigned to was contracted out to a Jewish Company named Ellerman Shipping, their main line of business being importing Bananas into Europe, but at this moment in time we were carrying various loads from and to many different European destinations. I was soon to discover that there was more profitable cargoes that we would soon be filling our haul with !

At the end of the War there were many thousands of Jews who were trying to get out of Europe and into Israel, and with Britain still basically being the World's leading maritime nation, (ie-Britain was dependant on its vast shipping Empire to keep the Country running) there were plenty of ship owners only too happy to capitalise on the Jews' whims to get to their so-called holy land.

At most of the ports of Europe on the Mediterranean sea you would find hordes of Jews seeking to find their passage.

Our boat was doing a drop in Marseille the first time that we ever picked any Jews up. We absolutely packed the haul with them one night, and set off, as they thought to Israel. I must of took part in this run on about 6 or 7 different occasions, and never once did we drop the Jews off at Israel !. It would always be in darkness when we would dock on some Mediterranean island, tell the Jews they were actually at "the holy land", and watch them clamber over one another to get on, as they believed, their "holy soil". Cyprus was a common dumping ground, but our boat always chose a much smaller island whose name eludes me after so many years to be honest.

It was a very risky business to do what we did, sometimes we would wait in dock in a European port for days until it was safe to load the Jews onboard and set sail. I recall at a naval port in France called Toulon, our Captain would invite the port authorities onboard and ply them with Gin, stockings, butter and various other contrabands, so that they would turn a blind eye as we loaded the Jews onboard. The risk wasn't confined to dock however, out at sea American Corvet patrol boats policed the waters looking for such loads, I recall on one occasion when we were ordered by our Captain to tip fuel down the haul onto the Jews, with the threat of setting them ablaze if they didn't keep the noise down after they'd become panicked when word went around we were being tailed by two Corvettes.

Among the Jews there would be one or two rabbis who would be allowed on deck to liaise with the ship's crew, and basically take the role of "Sea Kapo's". The other Jews would be kept in the haul for the entire journey, sleeping in their own urine & excrement, living on bread & water. They never seemed bothered though, the thought of reaching the destination paramount above any discomfort suffered. The rabbis would keep the other Jews in order, and were generally treated well by the crew, the Captain knew the rabbis would now various landmarks on our journey, so he would always be very careful that he kept them out of the way a while prior to when a drop was nearing its time, so they too would be kidded into thinking they were being dropped at Israel, bearing in mind it was always carried out in darkness. For our part in this affair, we received no extra payment as such, but had a perk in that anything the Jews had on them was our bounty. The rabbis would go around collecting money, watches, rings etc, but the Jews would hide things up their arse, swallow rings etc, so our "booty" was never too great, but it kept the crew happy. We never knew what sort of money the Captain or Ellerman took from the Jews at the ports, but it must of been a tidy old sum. As far as I am aware, not a single boat ever dropped the Jews off at Israel, at the time the British army were closely guarding all the coastal areas leading into Israel, to stem the illegal influx of Jews into the Country. Who knows how many actually made it there ?

THE OBSCENITY OF COMMUNISM by Harry.

Two events recently have caused me to reach for my pen, although they seem unlinked, they are deeply connected. The first is the rumoured death of Pol Pot, and the second is Venessa Redgrave promoting her new Trotsky type organisation 'International Artists Against Racism'. We must never forget Venessa, or her apt surname, Red Grave!. Now lets look at some of this century's communist leaders. Pol Pot, a former member of the French communist party, had 2 million Cambodians, his own people, put to death in three years. When he decided to ban cities, all city dwellers were herded out into fields and put to work. Money was abolished, as was private property, people were not allowed to use machines for work, and Cambodians who wore glasses were put to death for being intellectuals. There is now evidence that the 2 million figure of dead is much too low, the true number possibly going as high as 10 million!

Now we turn to Mao, the great Chinese communist, who with his great leap forward of re-organising the economy and agriculture caused the death of 30 million of his own people. While these 30 million Chinese were dying of starvation, we had a long line of commies from America & Europe going to Maoist China, then returning to preach how wonderful rural communism was. All of them eager to start killing their own people by similar means if possible.

Then we have the other fine advert for the joys of communism, Stalin. How many of his own people did he kill? Yet we similarly had rat bags of white liberals, European communists and jews going to Russia, then returning telling everyone how wonderful Stalinism was.

Back to Venessa, a drop out from white society, hater of her own race, and generally a vile woman. She is busy telling us that we must take in all refugee's from anywhere in the world, at anytime, of any number.

Redgrave would love to have racists (people who love their own race) dealt with in the same way as those wearing glasses in Cambodia, those running the wrong type of farm in Russia, and those who grew the wrong crops in China. Look at the 4 of them, Redgrave, Stalin, Mao & Pol Pot, all of them have the same qualifications, hate your own people, destroy your own people.

Home Land Update

The Homeland project in Essex has been hit by a sustained campaign by the authorities at hampering our progress. Harrassment, raids and arrests have been carried out regularly on "known" activists who have moved to the area, but many are not known to the ZOG, especially a number of elder Comrades who have now took up residence, so despite some minor setbacks, the "ideal" continue's to grow. The NSA unit based at York are now operating a share scheme, where the aim is to buy a farm in the homeland area via raising funds by selling shares. This works out at each share costing 10 pounds. If you wish to help in this project send a S.A.E. to the address below.

Alright there mate, great to hear from you as always. Loved the Order mag. I've just started back training for the new season, and hopefully we will get into the Premiership this time ?. I hope the mag goes from strength to strength, for people like me who have to keep a "low one" for obvious reasons, it's the only way we can still keep in touch with what's going on in the struggle. Andy, our lives have certainly took very different routes since we were kids, but we will always be together in our beliefs, HEIL HITLER!

Dear Andy

In issue 15 you advertised the AWAKE zine from here in Belgium. You cannot be aware that the guy who writes this zine is despised by everyone here, he used to run The Aryan tape service, and ripped everybody off, he was even going to be sued by Ian Stuart for bootlegging Skrewdriver albums ! The Awake zine is just another means for him to get back into circulation in the movement where sooner or later he will rip people off again, rest assured.

Mr Saxon,

On July 19th i travelled down to Kings Cross in London to see the "comeback" gig of The Business. It was apparent from the moment i entered the venue that there was an atmosphere of violence around, and just before The Business took the stage the venue erupted into Sieg Heils and "C C C18" echoing out. I would estimate around 40-50 were in this C18 firm, including its notorious International division (The I.C18.F. International C18 Firm, comprises of non-English Europeans living in London; ED.)

A punk wearing a "No Nazis" shirt was first to feel the wrath, i saw at least 6 beer glasses smash into his head, the Sharp skins tried to bolt for the door, but run into the I.C18.F. and all one could see was blood splattering the walls and hear screams ringing out. Complete mayhem ensued with the anti-fascists being systematically beaten to a pulp. The venue was wrecked, and then as if by magic all of the C18 firm vanished into thin air as the police arrived. It truly looked like a bomb had exploded, in all my years of gig going, during which times i have seen many fights, i have never seen anything quiet as vicious and well executed as this onslaught. I'm a N.S. but not really into the violent side of things, but seeing these red bastards screaming with fear as they got smashed was the best day of my life.

AN INTERVIEW WITH A RUSSIAN NAZI

Q1; Can you tell us the name of your group/party in Russia and a brief background to its formation ?

A. Our group is totally illegal, it is not big, but we do this so we can be sure that everyone is O.K. and we have no provocateurs, secret agents or bastards in it. We do not aim for big political plans, just militant action and to promote rebirth & spiritual racial tradition & heritage. We call our ideology Nordic Reaction.

Q2; Is your group Christian ? N.S. ? Odinist ?

A. We do not thrust our opinions of religion on anyone, we respect Christian and pre-Christian history & heritage. We respect the Russian Church as many Russian saints blessed people to fight against the communists & Zhids, and the church keeps the Russian spirit. We have Odinists, Russian Orthodox & ultra Nationalists, but all of us respect eternal value's, blood, soil & honour, and the swastika, symbol of our struggle.

Q3. What type of ZOG oppression do you have in Russia, can you display the swastika in public as example ?

A. Big Nationalist organisations are manipulated through money or false people. It is common to be prosecuted, or even just abolished, that's why we stay illegal from the start. Here in Siberia we have had trouble with agents and also forged cases. Under article 74 you can get between 5-10 years for displaying the swastika in public.

Q4. What is the average Russians view of blacks & jews ?

A. Russian people are treated worse & worse in favour of the blacks and caucasians, by caucasians we mean the Armenians and Chechens etc. They control all the crime & drugs. In Siberia we have no blacks, but many Chinese & Asians. The jews are treated in two ways, some think they are good people, and do not realize them for what they are, frank opinions about jews & blacks are banned in Russia, so such matters are spoke of in narrow circles, but the anti-black feeling has grown due to the Chechen war.

Q5; Just how many immigrants do

A. Firstly we have Russians driven to Russia) who are deprived of work & we approve of. Then we have poor & savage. Then there are the maphians (mafia) they run all the money the crime raises for them, it states power.

Q6; Why do so many jews leave

A. We have a very difficult there is always the threat of another deep here. The jews fear they will be spreading communism, humanism, & as they say its easier there.

Q7: Just how is Russia now since the life better ?

A. Communism hasn't fallen, only Democrats are yesterdays Russian people was undisguised, not as they remember 10 years ago when you still see people queing for bread &

you have in Russia ?

out from the Caucasus (surrounding area's homes and wish to return to Russia, which refugee's, gypsy's & other asians, all are well organised Chinese & Caucasain crime here, and are often very powerful by is not unknown for them to actually control a

fall of communism, is their more freedom, is

methods of lie have changed. All of todays communists. Before genocide to the it is refined. Some people vote Communist they could live O.K. for their money, today milk.

Q8. Do Russian N.S. take a side in the Balkans War ?

A; Yes, we back the Serbs against jew-american & moslem aggression. We do not just speak about it, we send volunteers to fight with our brothers against NATO and the New World Order; The Croats have become pawns in this war for the zionists and NATO, if they do not change they will be traitors of the Aryan intrests. On the Southern bounds of Russia savage moslem Chechens have risen, the Russian goverment carries on against them unskillfully, listening to foreign opinions. Islamic terrorism is now a threat to Russia, many people here go to Chechnya to fight, this war could awake Russia.

Q9. Can you tell us of The White Wolves group in the Balkans ?

A; People from poor backgrounds who are nazi in thinking who go to fight are known as White Wolves, they are characterized by pure valuable blood, sense of duty in front of white races & honour. Real personality always exhibits such qualaties. In the Balkans the Wolves are a united Russian - Serbian detachment, famous for its courage & will. there is also the "Tsar Wolves group" who are killing many Moslems.

Q10. Final words to your fellow comrades around the world ?

A. Many of my friends do not like or trust foreign comrades, but i know our enemy will sow hate & mistrust amongst us. Our future & destiny is with one another, the enemy must feel our presence everywhere for the future of the Nordic empire. The elite is now forming, not many of us will live to see the golden dawn of victory, but the swastika will rise again and victory will be ours. With the very best salute my comrades SIEG HEIL!

This report was carried out by the use of data from the files of The International Football Intelligence unit, by our Foreign Affairs correspondent from Belgium Bertrand Du Bouvier.

Prior to the start of the European Football Championships 96, the police in England conducted a massive operation against suspected C18 activists by carrying out raids up and down the Country. The media whipped up such a frenzy of fear & paranoia about the possibility of C18 causing a major disruption to the tournament, that a massive £28 million pounds was spent on implementing security measures & operations. All police leave was cancelled for match days, and a file was compiled of 35,000 names of potential National Socialists from throughout Europe, whom the police believed might attend some of the fixtures and cause trouble. ie- show Nationalistic pride!

The database that was used is known as Memex/Crimin, and can automatically provide the police with background information, a photo-print and known political affiliation of any of the 35,000 logged into its memory banks. The police further, had databases of pubs and meeting points used by National Socialists, and were totally confident they could prevent and showing of patriotism/Nationalism from Europe's Whitemen for their own respective Countries, with this £28 million budget.

And the outcome ? whilst all this money was wasted on trying to prevent young whites enjoying themselves, the I.R.A. drove a truck full of semtex into the centre of Manchester and blew it up !. In London on the same day the "big brother" technology came to nothing as English & Scottish fans rioted, leaving the police running around like headless chickens. The police made a heroic 107 arrests of young Nationalistic Aryans letting off a bit of steam in London, well worth £28 million !, yet the fact remains that the marxist terrorists of the IRA, who if anybody they should be spending finances on, took the complete piss out of the police.

Following the clashes after the England v Scotland game, security was once again stepped up for the games against Holland & Spain, but then in the semi final when England played Germany, after a penalty shoot out Englands dream was over, Germany were through.

In my mind England would of beat the Germans if we had an all White team playing, but no, we had the negro Paul Ince in the side, giving the all Aryan German side a clear advantage. That night as English fans drowned their sorrows in London, the police moved in with their heavy tactics and full scale rioting broke out, the police clearly coming out 2nd best in many of the confrontations. A further 200 young Whites were arrested on this night so the police could justify their £28 million budget and appease the scum at Westminster, who demanded any Nationalistic showing must be crushed !. But all in all, i feel that no matter what "big brother" tactics the ZOG employs to keep the people subordinant sheep, it just will not contain the Warrior spirit in the Aryan people.

The media made a big point of showing that negro's cars had been torched in London on this nights rioting, and even went to the hospital bedside of one negro who's throat had been slashed by a broken bottle when he strayed to close to the English mob !. The heart of the nation must of really been touched.

FOOTBALL TRIVIA

Two supporters of Italian club Verona were arrested after hoisting a black dummy in the crowd with a noose around its neck coupled with a racist banner.

Tottenhams negro player Sol Campbell had this to say after his debut game for England at the notorious match in Dublin. "I was only warming up on the touchline when i realised that the abuse being screamed by the English fans wasn't at the Irish, it was at me. They were yelling stuff at me because i was black and wearing a England shirt. Nobody felt prouder then me to wear that shirt, but suddenly my stomach turned. Before long i was dodging bits of metal they was chucking at me, that's when it kicked off".

Hapoel Taibe, an Arab team in Israel, caused uproar among the Chosen One's when their supporters began chanting "death to jews" at a recent match.

Whites & Asians fought a pitched battle on the field of a non league match in Dewsbury West Yorks causing the match to be abandoned. Over 50 people were brawling when police arrived in a battle totally on racial lines.

Former Notts Forest boss Brian Clough had this to say about the National Front in the late 1970s; "The N.F. are scum, the scum of the earth. Nazism is a disease which we have in this Country. It's just as bad as smallpox, it must be treated and stopped."

He fought for Race, not for Nation!

With the never ending act of jewish vengeance towards soldiers of the second World War, the pound of flesh mentality has now turned towards a Briton. Over 50 years since the end of the war, and now an international manhunt is underway by the so called War Crimes office, seeking Thomas Heller Cooper, who is now aged 77.

Cooper was born in Chiswick West London, to a German Mother & English father. He lived an average type of life in pre-war London, but had always admired and observed the steady growth of National Socialist Germany. Cooper had been active in the B.U.F. in England, but yearned to be part of N.S. Germany, so much so that in early 1939 he left London and moved to Stuttgart, where he found a job teaching languages in a school. In September when war was declared, Cooper was imprisoned as a "enemy alien", due to his British Nationality. He remained in jail until his German "matriarchy" enabled him to be classed as "Volksdeutsche". (by having a German mother he was accepted into society.ED.) Cooper was prevented from joining the German army however, due to his British birth, but found no barriers in enlisting into the SS, to which he through himself fanatically & wholeheartedly into. He served in both the Leibstandarte & the Totenkopf, and soon rose to Rottenfuhrer (Corporal). During the Russian campaign in 43 he was badly wounded in both legs at Leningrad, and evacuated back to Germany. As a result of his injuries he was awarded the Wound Badge, the only Englishman to receive a German combat decoration during the war. Later that year Cooper was assigned to organise the B.F.C. (British free Corps) which had been set up by John Amery. The B.F.C. were recruiting in the Stalags which held the British POWs, many of whom were attracted to the B.U.F. Cooper who had now gained the rank of Senior Sergeant, was well aware that many "Tommys" would be willing to join up in order to fight Bolshevism, and subtle recruitment leaflets were distributed in the Stalags reading "THE B.F.C. IS A THOROUGHLY BRITISH VOLUNTEER UNIT, CONCEIVED & CREATED BY BRITISH SUBJECTS FROM ALL PARTS OF THE EMPIRE WHO HAVE TAKEN UP ARMS & PLEDGED THEIR LIVES IN THE COMMON EUROPEAN STRUGGLE AGAINST SOVIET RUSSIA". Among Cooper's recruits were Eric Pleasants, who later became Middleweight boxing champion of the SS, and also Douglas Berneville-Clay, the only person in the history of the SAS to change sides.

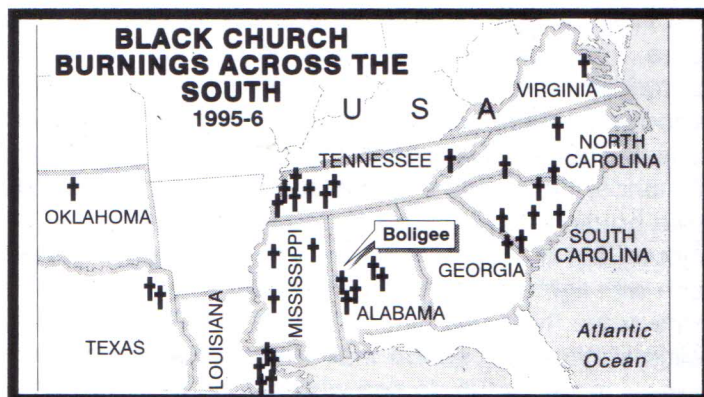

Cooper and his B.F.C. were assigned to driving duties in Northern Germany, and never really saw too much action before the war end and their capture. They was all brought back to London, and then put on trial at the Old Bailey for Treason. It was during Coopers trial that many details of his rabid anti-semitism came to light. In Warsaw it was claimed that Cooper himself shot 80 jews in one day by merely just lining them up one at a time against a wall & shooting them dead with a pistol. Whilst in Warsaw Cooper was in charge of a squad of Ukrainian Volunteers, it was said that Cooper would & the Ukrainians would usher jews up to the top of tall buildings, and then hurl the jews off. On one occasion it was claimed that Cooper picked up a jew baby and threw it out of the upstairs window exclaiming "it would only grow into a big jew". Cooper had served in the Totenkopf at Dachau & Oranienburg concentration camps, it was claimed that he would make internees hold fire bricks in their hands, and if they dropped one, he would shoot them dead. Cooper was alleged to of often boasted how he had stood ankle deep in jews blood more then once.

At Coopers trial he inevitably recieved the death penalty along with Amery & William Joyce, but two weeks before his appointment with Albert Pierrepoint (official hangman) his plea for clemency was granted due to the grounds that he had divided loyalties due to his German mother. After serving 7 years of his life sentence he walked out of prison in 1953, and was believed to of moved to Tokyo, where he is still thought to reside today aged 77. But today, under the wrath of zions 1991 war crimes act, The Scotland Yard War Crimes Unit are seeking to find Cooper and bring him to trial!. It is not known if he is even still alive for sure, but millions of pounds will be spent to appease the jewish craving for vengeance.

ONE LAW FOR THEM

After the non stop media attention attached to the murder of negro Stephen Lawrence in London, another clear example of "one law for them" comes to light. The youths originally charged with killing Lawrence were cleared by a jury, yet a private prosecution, with finance from the police was taken out, and again the innocent youths had months of injustice until again, a jury cleared them. Now we have a case of 3 fair ground workers from Bristol. One of the 3 was beaten by a gang of blacks, which resulted in the 3 carrying out a revenge attack on the black gang, for which they was all arrested. The three were sentenced for Three years, Three and a half and Five years respectively. But at the court of appeal, it was deemed that due to the racial overtones of this case, the sentences should be upped. And respectively they were increased to Five, Five and half and Seven years!.

GODS WRATH

Above is a map showing the current positions of Black churches which have been burnt in America. In the last 18 months, 33 of these negro churches have gone up in flames. No since the civil rights era, when over 100 negro churches were destroyed in the Mississippi area alone by the fearsome Ku Klux Klan Nightriders, have America's blacks been gripped by such a state of fear. Honest Bill Clinton recently made a radio address to the public on this matter, stating "i have vivid and painful memories of black churches being burned in my own state when i was a child". But Arkansas NAACP chairman commeted on Bills statement by declaring "i do not ever recall a church burning in Arkansas during the civil rights era".

Seems Billy boys memory aint too good after all.

Two Wongs don't make a White!

(Andy Saxon examines the coming Yellow peril of Vietnamese Gangs...)

With 1997 nearing and China's take over of Hong Kong taking place, we here in Britain will be swamped with up to Three Million Hong Kong Chinese taking advantage of their British citizenships !. Already many of Britains major towns have established "China Town" area's, and yellow communities, with the notorious crime of the Triad gangs never being far away. But even such an evil bunch of gangsters such as these are left in the shade when it comes to "evilness", when the Vietnamese hoods are taken into consideration. Britain does have an ever increasing number of Vietnamese refugee's living here, but thankfully we are not yet at the levels of places such as Orange County in California, where 74 different Vietnamese gangs are recognized by the police. the Vietnamese gangs differ radically from most street gangs, namely, they are better armed !. They go especially for high caliber automatic weapons, and have no qualms about using them. Viet gangs also have no actual "turf" or even specific allegiance to their own gang, they are free to switch gangs whenever they please, and committ crime wherever they want to. It has ben known for up to a dozen different gangs to attend the same party, with the worst thing happening being a few of them having hangovers in the morning.

The Viet gangs tend to stay away from the drug trade, preferring property offence's such as extortion, fraud, grand theft auto and "crashing homes". The latter being the main signature of a Viet gang crime. A typical "crash" on someone's home usually starts with a female gang member knocking on the door of the targetted home. As the door is opened by the unsuspecting owner, the masked male gang members charge in, they bind their victim with duct tape, the proceed to loot the house. It has been known for up to 20 Viet hoods to "crash" a home. Their viciousness knows no bounds, babies have been zapped with stun guns, boiling water has been poured on Grandmothers heads, childrens heads pushed down toilets and people "pricked" with contaminated hypodermic needles, all as a means of getting the head of the family to devulge where the cash is kept in the house. The police are often at a loss when investigating a Viet gang crime, the Viet community put up a iron wall of silence, the gangs move around the many pool halls, Cafe's and Restaurants the Viets have, using these as "safe house's" and places to sell their ill gotten gains. Membership of a gang is not displayed by the wearing of colours, but by scars on the hands etc, to prove their toughness, and criminality, the gang members sizzle their flesh with lighted cigarettes whenever they have committed a crime, this is their mark, their "status" symbol, the more scars the bigger a criminal he is !. Police officers always look for a fresh scar to indicate a recent crime. A police spokesman stated that " they have no concept of life or death, they do not particually do their crimes for money, more for fun, to see who can be the baddest. I have known girls to gouge out someone's face using their high heels and laugh about it. Prison just doesn't worry them, they see it as a sort of haven, a bed, 3 meals a day, no worries, it's a lot more then most of them ever knew being brought up in Saigon. The main thing which sets them apart from other gangs is their viciousness, they honestly just do not have any feelings in their bodies".

These startling revelations of Oriental terrorists might at present be from America, but how long until it happens here ?. The heading of this article says it all, "two Wongs don't make a White". So pack your bamboo suitcases and leave our Country NOW !.

Did you know that after Marlon Brando made his antisemitic comments on Jews running Hollywood, his plaque on the Hollywood walk of fame was daubed with swastikas by a Jewish rights group?

When four black thugs armed with stanley knives tried to attack a motorist, they came up against more than they bargained for in Paddy Doyle.

The black thugs "flagged" Paddy down as he drove towards them, pretending they needed help because of an accident. But no sooner had Paddy pulled over, the thugs pulled out weapons and set about to attack Paddy. What they didn't know was that Paddy was a former world class martial arts expert, and a ex-Para, who holds the world record for 8,794 one armed press ups.

Within a matter of seconds all 4 of the would-be muggers were on their backsides as Paddy rained Kung Fu blows onto them, resulting in the blacks making a speedy getaway before former skinhead Paddy got really annoyed.

We salute the way this Aryan man dealt with these ethnic criminals.
